

Go down spillway

Cross Creek on footbridge

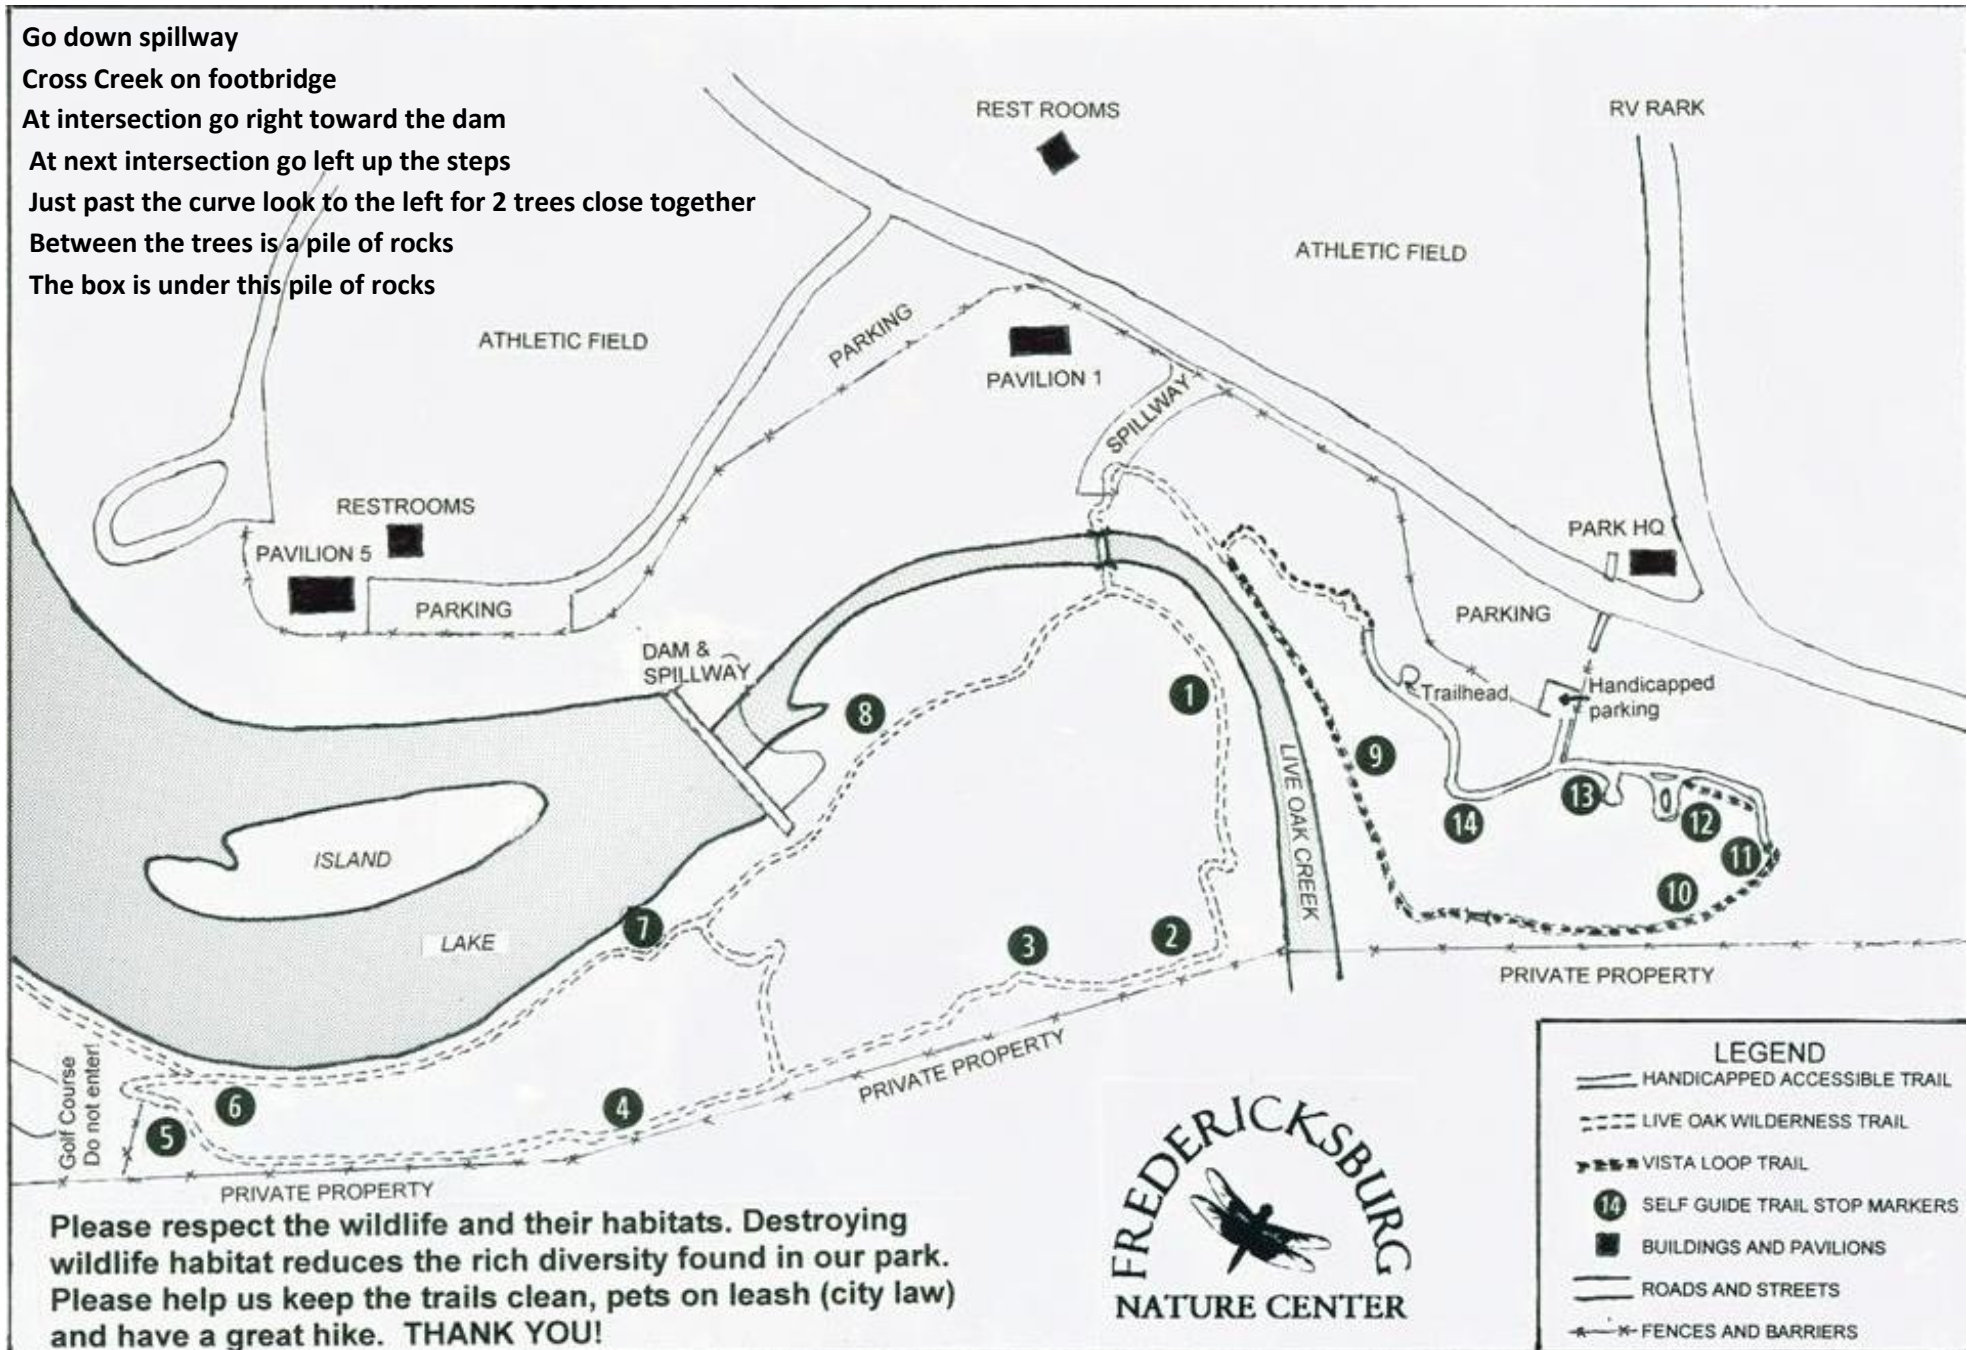

At intersection go right toward the dam

At next intersection go left up the steps

Just past the curve look to the left for 2 trees close together

Between the trees is a pile of rocks

The box is under this pile of rocks

Please respect the wildlife and their habitats. Destroying wildlife habitat reduces the rich diversity found in our park. Please help us keep the trails clean, pets on leash (city law) and have a great hike. THANK YOU!
